FHA Mortgage Limits

Footnotes

- CLTV's ≥100.01% limited to government approved programs (i.e. Federal, State or Local Government Agencies). When secondary financing is provided by government agencies, the secondary lien must be made or held by the eligible government body or instrumentality.
 - The monthly payments under the insured mortgage and second lien, plus housing expense and other recurring charges cannot exceed the Borrower's ability to repay.
 - ♦ CLTV may not exceed 100% when financing is provided by an individual or financial institution.
- See FHA FICO Overlay Matrix located at www.remnwholesale.com under Product Guidelines FHA
- **IMPORTANT**: For instances of renovation work where the number of units in the subject property will be impacted, please reference the <u>Property Types</u> section.
- Refinances are subject to all permits and building approvals secured prior to final approval
- ⁴ Minimum credit score for properties located in the state of New York is 600

PROGRAM OVERVIEW

Homeowners Insurance

- The following Insurance Policies must be obtained:
 - ♦ All Risk Insurance (Builders Risk)
 - With physical loss form endorsement and mortgagee's loss payable clause equal to 100% of the full replacement costs of improvements, public liability insurance, workmen's compensation insurance (as required by applicable state law) and automobile liability insurance.
 - Must have coverage to insure the property during renovations equaling 100% of the full replacement cost of improvements for a 6-month period.
 - » All renovation loans where the borrower has included mortgage payment escrows into the loan amount must have a Builder's Risk policy (REMN overlay: mortgage escrows are not permitted)
 - » For Renovation loans with repair costs ≥ \$75,000 \$200,000 (Standard only):
 - Repair costs >\$200,000 require exception from executive management.
 - Builder Risk Policy is required unless there is a written confirmation from HOI company that the appraisal and
 the final scope of work has been reviewed and the company will issue the HOI policy without property-related
 exceptions. The REMN reno team will be responsible for communication with the HOI company prior to final
 approval and closing.
 - 6 month Builder Risk policy fore direct hart costs ≤ \$200,000
 - 12 month Builder Risk policy for direct hard costs > \$200,000
 - ♦ Hazard Insurance (quote must be obtained after Builders Risk is in place)
 - » Follow standard REMN WS Insurance Requirements.
 - ❖ Flood Insurance (if applicable)
 - » Follow standard REMN WS Insurance Requirements.
 - ♦ Title Insurance
 - Title Policy must cover the full amount of the recorded mortgage, must be dated concurrently with the recordation of the mortgage and must be updated to the date on which the renovation work is completed.

Property Types

PROPERTY	STANDARD	LIMITED
Primary Residence	Yes	Yes
Second Home	No	No
Investment	No	No
1-2 Unit	Yes	Yes
3-4 Unit ⁵	Yes ¹	Yes
PUD	Yes	Yes
Condo ²	Yes	Yes
New Construction ³	No	No
Mixed Use ⁴	Yes	No
Co-Operatives	No	No
Manufactured Housing*	Yes	Yes

- Convert a 1-Family dwelling into a 2, 3 or 4-Family dwelling as well as an existing multi-family being decreased to a 1-4 Family dwelling. For transactions that will involve the addition of livable units within the subject property, the maximum loan amount of the transaction must adhere to the current maximum loan limit based on the current as-is status of the subject property. e.g. If an existing 1-unit property will be converted to a 2 unit, the max loan limit for 1-unit property will apply
- Maximum Mortgage cannot exceed 100% of the After-Improved value. See Condo Units in these guidelines for further detail.

 New Construction is <u>not</u> eligible; properties MUST have CO issued for at least one (1) year.
 - Demolished homes or homes that will be torn down during the rehab process are eligible provided a complete existing foundation is in place.

Repairing, reconstructing or elevating an existing foundation where the structure will not be demolished or torn down is acceptable, providing that the original structure remains intact.

Additions to the structure: Any addition of a structure unit must be attached to the existing structure. All newly constructed additions the energy improvements must meet or exceed local codes and requires of the 2006 International Energy Conservation Code or a successor energy code standard that has been adopted by HUD through a Federal Register notice. Site improvements such as landscaping, patios, decks, etc. must increase the As Is Property Value equal to the dollar amount spent on the improvements or be necessary to preserve the property from erosion. Appraiser will need to comment on the value added for these types of improvements.

4 Mixed Use (Standard only):

- Additional FHA guidelines apply as detailed in FHA Handbook 4000.1
- All appraisals must be reviewed by either the Chief Appraiser and/or Chief Credit Officer to determine the acceptability of the collateral and neighborhood.
- Properties with business such as dry cleaners, gas stations and auto repair shops are not allowed.
- Although not limited to these, professional use and "light retail" are preferred mixed-use types

Manufactured Housing – there are no unique requirements except for the following:

- The rehab must not affect the structural components of the structure that were designed and constructed in conformance with Federal Manufactured Home Construction & Safety Standards.
- Additions are allowed however the foundation must be recertified with either:
 - An inspection by the state administrative agency that inspects Manufactured Housing for compliance; or
 - A certification of the structural integrity from a licensed structural engineer if the state does not employ inspectors.

January 2024 Page 6 of 34

⁵3-4 Unit (Limited) – a feasibility study is required.

Lava Zone Properties	 Not eligible for properties located in Lava Zones 1 & 2 No restrictions for properties located in Lava Zone 3 or higher. 			
	PROGRAM OVERVIEW			
Property Eligibility	 ♦ The property must be an existing property that he case number assignment date. If REMN WS is un least one (1) year, REMN WS must request a copy ♦ A property that is not eligible for a 203(b) Mortgal eligible under 203(k) if the rehabilitation or repair ♦ A property with an existing 203(k) Mortgage is not and the case has been electronically closed out. The following property types may be financed: ♦ A 1 Unit Single Family Structure; » The Sales Contract must include a provision the contract is contingent upon mortgage required improvements as determined by the contract is contingent upon mortgage required improvements are limited fire unit must be located in an FHA-approvement of the unit; » Rehabilitation or improvements are limited firewalls in the attic for the unit; » No more than five units per condominium whichever is less, can undergo rehabilitation » After rehabilitation is complete, the unit is units. For townhouse style condominiums, provided each unit is separated by a one and Mixed Use ♦ Manufactured Homes (all states except the State of Site Condominium unit; and ♦ HUD Real Estate Owned (REO) Property: 	the eligible to be refinanced until all repairs are completed in that the Borrower has applied for 203k financing and approval and the Borrower's acceptance of additional the Mortgagee. Towing requirements: The Condominium Project and must comply with all to the interior of the unit, except for the installation of association, or 25% of the total number of units, in at any time; and allocated in a structure containing no more than four (4) each townhouse is considered as one structure, and one-half hour firewall from foundation to roof; of New York) The provided Hamiltonian and the Borrower's acceptance of additional and approved and the Borrower's acceptance of additional approved and the Borrower's acceptance of additional approved and the Borrower's acceptance of additional and approved and the Borrower's acceptance of additional approved and the Borrower's acceptance of additional approved and the Borrower's acceptance of additional and approved and the Borrower's acceptance of additional approved and the Borrower's acceptance of additio

PROGRAM OVERVIEW **Identity-of-**Identity-of-Interest transactions: **Interest** Purchase of a principal residence between; parties with a familial or business relationship or business affiliates. The maximum LTV is limited to 85% for Identity-of-Interest transactions. Exceptions to the maximum LTV for Identity-of-Interest transactions. Maximum financing above the 85% LTV is permitted under certain circumstances. The table below describes circumstances in which financing above 85% LTV is permitted. > A family member purchases another family member's home as a principal residence. **Family** Member > If the property is sold from one (1) family member to another and is the sellers' investment property, the maximum mortgage is the lesser of; **Purchase** 85% of the appraised value; or, The appropriate LTV factor percentage applied to the sale price, plus or minus NOTE: The 85% limit may be waived if the family member has been a tenant in the property for at least six (6) months immediately preceding the date of the sales contract. A lease or other written evidence must be submitted to verify occupancy. Builder's An employee of a builder, who is not a Family Member, purchases one (1) of the builder's new **Employee** homes or models as a principal residence. **Purchase Tenant** A current tenant, including a family member tenant purchased the property where he/she has **Purchase** rented for at least six (6) months immediately preceding the date of the sales contract. NOTE: A lease or other written evidence to verify occupancy is required. The maximum mortgage calculation is not affected by a sales transaction between a tenant and a landlord with no Identity-of-Interest relationship. **Corporate** A corporation **Transfer** » Transfers an employee to another location, » Purchase the employee's home; and, » Sells the home to another employee. Conflict of interest refers to any party to the transaction who has a direct or indirect personal, business, or financial relationship sufficient to appear that may cause partiality and influence the transaction. Sales transactions between Family Members are permitted (see above). REMN WS does not permit any other conflict of interest between parties in the 203(k) transaction. The Borrower and the 203(k) Consultant must each sign an Identity-of-Interest certification that is placed in the case binder. If the Borrower selected a 203(k) Consultant to perform a Feasibility Study, REMN WS may select the same 203(k) Consultant for the project without creating an Identity of Interest.

Permit Fees ³	Included Included		
Discount Points	Calculated from repair costs and fees	Calculated from repair costs and fees	
Supplemental Origination Fee	REMN WS does not charge a Supplemental Origination Fee 1 Inspection Fee(s) – If all inspections are not required, remaining funds will be applied to the principal balance after the Final Release Notice is issued. If additional inspections are required by REMN WS to ensure satisfactory compliance with exhibits, the Borrower or Contractor will be responsible for payment however, REMN WS has the ultimate responsibility. 2 Architectural/Engineering Fee(s) – Borrower may finance costs incurred for these items when the HUE Consultant cannot supply them. A plot plan of the site is required only when a new addition is planned Structural evaluation, examinations and reports (should be stated in the contract between the Contractor and homeowner who pays for the permits and when they should be obtained. 3 Permit Fee(s) – Costs for any and all permits can be included in the rehabilitation costs. If the Contracto has included fees as part of his overhead, they should not be financed. The HUD Consultant will provide information on permits; however, permits are not a line item or included in miscellaneous on the Work Write-Up. Very few projects do not have permits. 4 For renovation loans with repair costs ≥ \$75,000 - \$200,000 (Standard only), soft costs (cost of architectural drawings engineering fees, permits, etc.) will only be considered as reimbursable fees when the permits are approved and the Concierge group receives a copy(s) of the permit(s). No payments can be drawn from the escrow account until the permit(s) is provided. Repair costs >\$200,000 require exception from executive management.

	MAXIMUM MORTGAGE CALCULATION					
Purchase	Step 1 Identify the lesser of the below calculation:					
	Purchase Price + Renovation Costs; or					
	As-Is Value* + Renovation Costs; or					
	· · · · · · · · · · · · · · · · · · ·	110% of After-Improved Value (Condo limited to 100% of After-Improved Value)				
	* HUD does not require an As-Is Value; HUD assumes the purchase price is the As-Is Value.					
		Multiply the lesser of the above calculation by 96.50% to obtain Base Loan Amount.				
	Step 2 Add UFMIP to Base Loan Amount to obtain Total Loan Amount.					
	Step 3					
	Purchase Price + Renovation Costs	Dellas Amerint				
		Dollar Amount				
	Purchase Price	\$120,000				
	Total Cost of Repairs (labor & materials) Allowable Fees/Costs	\$24,500				
		\$1,500				
	Contingency Reserve (15% of Costs of Construction, Repairs and Rehabilitation)	\$3,675				
	Total Purchase Price and Renovation Costs	\$148,175				
	110% of After-Improved Value	\$158,950				
	After-Improved Value (Located in Reconciliation section of Appraisal)	#142.000				
	Maximum Base Loan Amount at 96.5% LTV	\$142,989				
	Total Mortgage Amount with 1.75% UFMIP \$145,491					
	In this example the Purchase Price + Renovation Costs is less than 110% of After-Improved Value. Therefore \$148,175 is used to calculate the base loan amount.					
	LIMITED					
	Purchase Price + Renovation Costs	Dollar Amount				
	Purchase Price	\$120,000				
	Total Cost of Repairs (labor & materials)	\$24,500				
	Allowable Fees/Costs	\$650				
	Contingency Reserve (10% of Costs of Construction, Repairs and Rehabilitation)	\$2,450				
	Total Purchase & Renovation Costs	\$147,600				
	110% of After-Improved Value	\$176,000				
	After-Improved Value (Located in Reconciliation section of Appraisal)	\$170,000				
	Maximum Base Loan Amount at 96.5% LTV	\$142,434				
	Total Mortgage Amount with 1.75% UFMIP	\$144,926				
	In this example the Purchase Price + Renovation Costs is less than 110% of After-Impro	In this example the Purchase Price + Renovation Costs is less than 110% of After-Improved Value. Therefore				
	\$147,600 is used to calculate the base loan amount.

		MAXIMUM MORTGAGE CALCULATION		
\$100 Down Payment (HUD REO) Purchase	Step 1	Identify the lesser of the below calculation: As-Is Value* + Renovation Costs – (minus) \$100.00; or 110% of After-Improved Value (Condo limited to 100% of After-Improved Value) * HUD does not require an As-Is Value; HUD assumes the purchase price is the As-Is Value.		
	Step 2 Add UFMIP to Base Loan Amount to obtain Total Loan Amount. → The HUD REO property does not qualify for Section 203(b) or Section 203(b) with Repair Escrow and is eligible for FHA-insured financing only under Section 203(k). → The \$100 Down Sales incentive allows a Borrower to purchase a HUD REO property with FHA-insured financing with a minimum down payment of \$100.00 → Contract Sales Terms → Line 4 of the sales contract will specify the Insured HUD REO Purchase Program under which the Borrower is applying, the down payment and the mortgage amount. → Regardless of the Insured HUD REO Purchase Program on Line 4 of the contract, REMN WS must determine the eligibility of the property, the borrower and the specified HUD REO Property Program that must be used to finance the purchase. → The amount of the cash down payment specified on Line 4 will be \$100. → The amount on Line 5 specifies the amount of closing costs that HUD will pay on behalf of the Borrower. The amounts on Line 6a and 6b represent the sales commission HUD will pay to the selling and listing broker. → Contributions by HUD toward the Borrower's closing costs are not defined as Interested Party Contributions or Inducements to Purchase. → REMN WS will require a 15% Contingency Reserve will be required if utilities are not on/in proper working order.			
	Purchase	STANDARD & LIMITED Price + Renovation Costs	Dollar Amount	
	Purchase		\$100,000	
		st of Repairs (labor & materials)	\$3,500	
	Allowable Fees/Costs \$475			
	Contingency Reserve (15%) \$5 Total Purchase Price and Renovation Costs \$104.5			
		After-Improved Value	\$104,500	
		proved Value (Located in Reconciliation section of Appraisal)	\$110,000	
			\$104,400	

January 2024 Page 19 of 34

In this example the Purchase Price + Renovation Costs is less than 110% of After-Improved Value. Therefore

Total Mortgage Amount with 1.75% UFMIP

\$104,400 is used to calculate the base loan amount.

APPRAISAL

Appraisal Reports

Establishing Value

- An appraisal by an FHA Roster Appraiser is always required to establish the After-Improved Value of the property. Except as described below in cases of property flipping and refinance transactions, REMN WS is not required to obtain an As-Is Appraisal and may use alternate methods mentioned below to establish the Adjusted As-Is Value. If an As-Is Appraisal is obtained, REMN WS must use it in establishing the Adjusted As-Is Value.
 - » Appraisal reports should be noted "subject to the following repairs or alterations".
 - » Market Value; to determine the estimate of market value after rehabilitation in any neighborhood, the Appraiser must give full consideration to neighborhood improvements that are proposed and in process through government action and/or organized community effort. In areas undergoing rehabilitation or revitalization; either with public help or private funds, the value estimate must use market data from similar areas including those that have been revitalized, as world be done in any other appraisal.
 - » Site improvements such as landscaping, patios, decks, etc. must increase the As Is Property Value equal to the dollar amount spent on the improvements or be necessary to preserve the property from erosion. Appraiser will need to comment on the value added for these types of improvements
- → For renovation loans with repair costs ≥\$75,000 \$200,000 (Standard only), appraisers must address, in the appraisal addendum, any repairs that must be made to meet fire, health and safety issues, as well as any other property repairs required for the subject property to meet agency minimum property standards.
 - » Repair costs >\$200,000 require exception from executive management.

Standard 203(k)

- Appraiser must be provided with a copy of the Contractor bid, Feasibility Study or completed Consultant Write-Up and they must remark on appraisal about the scope of work being completed.
- ♦ Appraiser must identify all Fire, Health, and Safety issues OR confirm there are none. See page 546 of the 4000.1 Handbook under Determination of Defective Conditions

Limited 203(k)

- Appraiser must be provided with a copy of the Contractor bid, Feasibility Study or completed Consultant Write-Up and they must remark on appraisal about the scope of work being completed.
- Appraiser must identify all Fire, Health, and Safety issues OR confirm there are none. See page 546 of the 4000.1 Handbook under Determination of Defective Conditions
- ♦ Valuation Analysis and Review
 - Complete HUD Form 92700 and 203(k) Maximum Mortgage Worksheet to determine market value of the subject property after rehabilitation and the maximum mortgage amount.
 - » Maximum Mortgage Amount to be shown on the Conditional Commitment/Statement of Appraised Value HUD Form 92800.5B.
 - Issue HUD Form 92800.5B with a term of four (4) months.
 - The value placed on this form should always be the As-Is value + cost of rehabilitation or 110% of the value; whichever is less.
 - » Input the figure on line C2 for purchase transactions and line D4 for refinance transaction from HUD Form 92700.
 - » Written Proposal and Cost Estimates
 - REMN must obtain a written proposal and Cost Estimate from a contractor for each specialized repair or improvement. REMN must ensure that the selected contractor meets all jurisdictional licensing and bonding requirements. The written proposal must indicate Work Items that require permits and state that repairs are non-structural. The Cost Estimate must state the nature and type of repair and cost for each Work Item, broken down by labor and materials.
 - A statement from the contractor signed by the borrower detailing that the repair does not prevent the borrower(s) from occupying the Property for more than fifteen (15) days during the rehabilitation period.

January 2024 Page 24 of 34

APPRAISAL			
Adjusted As-Is Value	Purchase Transactions – the Adjusted As-Is Value is the lesser of:		
	♦ The purchase price less any inducements to purchase; or		
	The As-Is Property Value, as determined by an FHA Roster Appraiser, when an as-is appraisal is obtained.		
	» In the case of property flipping, REMN WS must obtain an As-Is Appraisal if needed to comply w		
	the property flipping guidelines.		
	♦ When the existing debt, plus items listed below does not exceed the After-Improved Value, a second "As Is" Appraisal is entired.		
	"As-Is" Appraisal is optional.		
	» Financeable Repairs & Improvement Costs;		
	» Financeable Mortgage Fees;		
	» Financeable Contingency Reserves; and		
	» Financeable Mortgage Payment Reserves (Standard 203k ONLY)		
	The "Adjusted As-Is" Value is calculated using the existing debt, plus closing costs and pre-paid costs		
	of the new mortgage. NOTE: When using this calculation for the Adjusted As-Is value, in lieu of obtaining a second appraisal,		
	the maximum mortgage amount is limited to 97.75% of the Adjusted As-Is Value, plus the financeable		
	items above. The borrower will be required to document the assets for the remaining 2.25% of the		
	total payoffs, closing costs, and financeable repair items to bring to the closing table.		
	When the borrower opts to obtain a second, "As-Is" Appraisal, and the value exceeds this calculation,		
	the "As-Is" Value becomes the Adjusted As Is Value, and the borrower can include all payoffs, closing		
	costs, and financeable repair items in the mortgage up to 97.75% of the "As-Is" Value.		
	♦ Existing debt includes:		
	» The unpaid principal balance of the 1st mortgage as of the month prior to REMN WS disbursement;		
	» The unpaid principal balance of any purchase money junior mortgage as of the month prior to the REMN WS disbursement:		
	» The unpaid principal balance of any junior liens over twelve (12) months old as of the date of the		
	REMN WS disbursement. If the balance of any portion of an equity line of credit in excess of \$1,000		
	was advanced within the past twelve (12) months and was for purposes other than repairs and		
	rehabilitation of the property, that portion above and beyond \$1,000 of the line of credit is not		
	eligible for inclusion in the new mortgage;		
	» Interest due on the existing mortgage(s);		
	» MIP due on existing mortgage;		
	» Any prepayment penalties assessed;		
	» Late charges; and escrow shortages.		

APPRAISAL			
Appraisal	Repairs Noted by Appraiser		
	♦ If health and safety repairs noted in the appraisal are not included in the Consultant Work Write-Up,		
	REMN WS must ensure those repairs are included in a revised Work Write-Up and Contractor Bid.		
After Improved Value	To establish the After-Improved Value, REMN WS must obtain an appraisal of the property subject to		
	the repairs and improvements.		
Documents to be	REMN WS must provide the Appraiser with a copy of the Consultant's Work Write-Up and Cost Estimate		
provided to the	for a Standard 203(k), or the work plan, contractor's proposal and Cost Estimates for a Limited 203(k).		
Appraiser at			
Assignment

PROPERTY

Condominium Units

Rehabilitation is limited only to the interior of the unit. Mortgage proceeds are not to be used for the rehabilitation of exteriors or other areas which are the responsibility of the condominium association, except for the installation of firewalls in the attic for the unit.

- Only the lesser of five (5) units per condominium association, or 25% of the total number of units, can be undergoing rehabilitation at any one time;
- The maximum mortgage amount cannot exceed 100% of the After-Improved value.
- After rehabilitation is complete, the individual buildings within the condominium <u>must not</u> contain more than four units. By law, Section 203(k) can only be used to rehabilitate units in 1-4-unit structures. However, this does not mean that the condominium project, as a whole, can only have four (4) units or that all individual structures must be detached.
 - » Example: A project might consist of six (6) buildings each containing four units, for a total of 24 units in the project and, thus, be eligible for Section 203(k). Likewise, a project could contain a row of more than four (4) attached townhouses and be eligible for Section 203(k) because HUD considers each townhouse as one structure, provided each unit is separated by a 1½ hour firewall (from foundation up to the roof). Similar to a project with a condominium unit with a mortgage insured under Section 234(c) of the National Housing Act, the condominium project must be approved by HUD prior to the closing of any individual mortgages on the condominium units.
 - REMN WS OVERLAY: Project must be approved by HUD at time of case number assignment issuance.
 - » Reminder; four (4) unit limitation applies to "apartment style condominiums"; it does not apply to "townhouse style condominiums" if the condominium has the 1½ hour firewall (from foundation up to the roof) as indicated above.

January 2024 Page 26 of 34

PROPERTY Utilities If the property is vacant, the appraiser should note in the "Improvements" section under "Condition of Property" whether the utilities were on or off at the time of the appraisal inspection. If the utilities were not on at time of the appraisal inspection; REMN WS will require a 15% contingency reserve to be established. In all instances, the functionality of electrical and plumbing is addressed by independent contractors/consultants or other industry professionals. This includes winterized and/or REO properties. Contractors or consultants must address possible repairs in their bid. Bids should be marked "Final" not "Estimate". No price expiration dates should be present. Below are examples of documentation that can be received to provide a reasonable expectation that utilities were on and properly functioning if the subject property is vacant or in need of repairs. Winterized Certification from vendor who conducted the winterization indicating utilities were on and in **Property** proper working order at the time the winterization was completed. Extensive work write-up that addresses all utility related issues. Water / Home inspection that was completed at the time the water was on and properly functioning. **Plumbing** Plumbing pressurized test. Professional inspection performed by licensed specialty contractor (i.e. plumber). * Extensive work write-up that addresses all plumbing related issues. **Electric** Home inspection that was completed at the time the electric was on and properly functioning. Professional inspection performed by licensed specialty contractor (i.e. electrician). * Extensive work write-up that addresses all electric related issues. **HUD REO** If the utilities are off at the time of inspection, the Appraiser must ask to have them turned on **Properties** and complete all requirements under Mechanical Components. However, if it is not feasible to have the utilities turned on, then the appraisal must be completed without the utilities turned on or the mechanical system functioning. The appraisal report must include the applicable property specific appraisal reporting form, all required exhibits and a copy of the PCR. **Property Condition Report** Item Description/Condition Item Functionality Functionality/Test Notes The HVAC system was powered with a 220V generator and no apparent deficiencies were revealed. The drop temperature test on ac side showed temperature dropped but on the heat side could not because the gas was not active. Cooling/Air-Conditioner: OK HVAC tested and functional?: --Heating/Furnace: OK -- HVAC System Duct: oĸ The electrical system was powered with a 220V generator and no apparent deficiencies were revealed.  REMN WS will allow additional "specialty Contractor" for very special technical items such as; pool repair, fencing, well/septic, lead based paint, etc. contact RCS for details. The repairs and improvements must meet any local codes and ordinances and the Contractor must obtain all required permits prior to the 1st draw. Renovation Refinances where the scope of work includes major additions to the current structure and/or building additional detached structures such as ADUs or garages require:	are non-structural. The Borrower must provide REMN WS with written cost estimate(s) and references from a duly licensed and bonded Contractor(s) for each specialized repair or improvement. ◆ Contractor(s) must be licensed and insured as required by State & Local (City, County, Municipality, etc.) requirements. ◆ The repairs and improvements must meet any local codes and ordinances and the Contractor must obtain all required permits prior to the commencement of the work. ◆ The cost estimate(s) must clearly state the nature and type of repair and the cost for completion of the work item. ◆ REMN WS will review the Contractor's credentials, work experience, social media postings, public record information, and client references. REMN WS may require the Borrower to provide additional cost estimates if necessary. ◆ After REMN WS review the selected Contractor(s) must agree in writing to complete the work for the amount of the cost estimate and within the allotted time frame. ◆ Contractor's cost estimate(s) and the Homeowner/Contractor Agreement(s) must be in the loan file. ◆ The Contractor(s) must finish the work in accordance with the written estimate and Home/Contractor Agreement(s) and any approved change order. ◆ Rehabilitation Construction Period begins when the mortgage loan is closed.

January 2024 Page 28 of 34

CONTRACTOR & REHABILITATION PROCESS

Contractor Required Information

Mortgagee Letter 1998-11 required REMN WS to "approve" Contractors prior to closing and numerous questions have surfaced regarding the intent of this requirement. HUD does not expect REMN WS to actually approve Contractors, but rather assure that an "acceptable" general Contractor (or specialized Contractor) has been hired and by contract agrees to complete the work described in the work write-up for the amount of the cost estimate and within the allotted time frame. Contractors are required to provide the following information:

- Contractor Profile Report (REMN will send the report directly to the contractor for completion)
- ♦ Applicable licenses as required by the state, local municipality, county and city jurisdictions.
 - » Verification of current active licenses may be obtained from individual State maintained websites; provided sufficient information is available to RCS (name of company, name or primary principal, address, type of license, license number and expiration date).
- ♦ Applicable proof of insurance as required by the local, state, county and city jurisdictions
 - \$1,000,000 General Liability (as required by the state)
 - » Workmen's Compensation
 - » Builder Risk (required only if Master Insurance does not cover construction)
- ♦ Three (3) business references, similar to the proposed subject project.
 - » Include the name and address of the reference, scope of work and cost of work completed.
- ♦ Completed Federal W-9
- ♦ Homeowner/Contractor Agreement
- Contractor Acknowledgement
- Signed detailed bid itemizing the specific cost (material and labor) of each individual repair. Bids should be marked "Final" not "Estimate". No price expiration dates should be present.
- ♦ REMN WS will limit the number of Contractor's to one (1) under the Standard program.
 - » REMN WS will allow additional "specialty Contractor" for very special technical items such as; pool repair, fencing, well/septic, lead based paint, etc. contact RCS for details.
- REMN WS will limit the number of Contractor's to three (3) under the Limited program.

January 2024 Page 29 of 34

CONTRACTOR & REHABILITATION PROCESS

REMN WS Contractor Review Requirements

REMN WS must review the following items pursuant to the proposed Contractor; credentials, work experience, licensing information, type of work performed, experience, social media postings, public record information, and client references. Also, it is **required** that Borrowers and Contractors complete an agreement that outlines the rights, responsibilities of each party.

- ♦ REMN will not review a contractor for acceptance until the loan file has become an application.
- ♦ Contractors are not approved by HUD. REMN WS will accept or reject the submitted request.
- Contractor Bids Limited ONLY
 - » While REMN WS is not a Contractor, participation in this program requires that we examine the Contractor's bid(s) and determine that they fall within the usual and customary range for similar work. REMN WS must also ensure that the selected Contractor(s) meet all jurisdictional licensing and bonding requirements.
 - Every bid received must include the Borrower(s) name and property address and must be signed by both the Borrower and Contractor.
 - » Bids received from Contractors; LIMITED ONLY
 - Should clearly state the nature and type of repair/renovation and cost for completion of each work item to be performed.
 - Should be very detailed to show the following
 - Material and labor cost of each item.
 - General description of material items.
 - No expiration date should be shown on any cost estimate as date of completion is unknown at time of bid write up.
 - Cost + Bids are not acceptable.
- Written proposal must indicate Work Items that require permits and state that repairs are non-structural.
- For projects with General Contractors with direct hard costs of \$15,000 to \$35,000, the Contractor must evidence that they have been licensed and insured over the most previous twelve (12) months from the application date
- For projects with General Contractors with direct hard costs of \$35,001 to \$75,000, the following would apply:
 - » Contractors will need to show a minimum two (2) year history of performing similar projects
 - » Contactors must show that they have been licensed and insured over the most previous 24mos from the application date
 - » Contractors will need to show a minimum of 25% of the direct hard costs in available business lines of credit and/or business cash/checking accounts.
- For projects with General Contractors with direct hard costs of \$75,000 or higher, the following would apply:
 - » Contractors will need to show a minimum of three (3) year history of performing similar projects
 - » Contactors must show that they have been licensed and insured over the most previous 36mos from the application date
 - » Contactors will need to show a minimum of 25% of the direct project cost in available lines of credit and/or business cash
 - » REMN's renovation team will run a LexisNexis Business Report on the contractor/business, which will need to reflect an acceptable business and credit profile.
- ♦ Post-Closing Contractor Rehire Fee Structure:
 - » For a new General Contractor (GC) \$150
 - For any additional Specialty Contractor(s) \$100

January 2024 Page 30 of 34

203(k) HUD Consultant

HUD CONSULTANT

♦ A FHA-Approved 203(k) Consultant is required for all Standard 203(k) mortgages and may be used for Limited 203(k) mortgages. Any Consultant who performs work on a 203(k) must be listed on the FHA 203(k) Consultant Roster. The Consultant inspects the property and prepares the architectural exhibits, the Work Write-Up and Cost Estimate.

203k Consultants					
The 203k Consultant		for 203k Consultants by name	and/or city and state. Detailed help is available online. For comments or other questions, click here.		
	Last Name	First Name			
Name:					
City:					
State:	Select State	*			
Status:	Active ▼		Sand Reset		

- ♦ The HUD Consultant can do the inspections during the construction stage.
 - » The HUD Consultant cannot be the Contractor on the job, because it is considered a conflict-of-interest.
- ♦ The HUD Consultant manages the entire project
 - » Consultant(s) work for HomeBridge Financial Services, Inc., DBA Real Estate Mortgage Network
 - » Consultant(s) work directly with the borrower(s) and contractor(s).
 - » Gives a Work Write-Up copy to the Borrower, so their Contractor can put his prices on the plan.
 - Contractor signs and acknowledges the Scope of Repairs from the HUD consultant as the approved documents.
 - » The Consultant's pricing should be based on current market costs or materials and labor.
 - » The Consultant's Work Write-Up is supplied to the Appraiser for the after-improved appraisal.
 - » The HUD Consultant performs draw inspections to approve disbursement to Contractor.

Consultant Duties

The Consultant must perform the following duties in accordance with the requirements set forth below.

Feasibility Study

- If requested by the Borrower or REMN WS to determine if a project is financially feasible, the Consultant must prepare a Feasibility Study.
 - » A Feasibility Study consists of a preliminary inspection of the property and an estimate of the materials and cost for the work that will be necessary to comply with HUD requirements.

Consultant Inspection

- ♦ The Consultant must inspect the property to ensure:
 - » There are no rodents, dry rot, termites and other infestation on the property;
 - » There are no defects that will affect the health and safety of the occupants;
 - » There exists adequate structural, heating, plumbing, electrical and roofing systems; and
 - » There are upgrades to the structure's thermal protection (when necessary).

(Continued on following page)

January 2024 Page 31 of 34

HUD CONSULTANT

203K HUD Consultant

- ♦ The Consultant must prepare a report on the current condition of the property that categorically examines the structure utilizing the 35 Point Checklist. The report must address any deficiencies that exist and certify the condition of all major systems; electrical, plumbing, heating, roofing and structural.
- The Consultant must determine the repairs/improvements that are required to meet HUD's Minimum Property Requirements (MPR), Minimum Property Standards (MPS) and local requirements.

Architectural Exhibits

♦ The Consultant is responsible for identifying all required architectural exhibits. The Consultant must prepare the exhibits, or, if not qualified to prepare all the necessary exhibits, must obtain the exhibits from a qualified subcontractor.

Work Write-Up and Cost Estimate

The Consultant must prepare an unbiased Work Write-Up and Cost Estimate without the use of the contractor's estimate. The Work Write-Up and Cost Estimate must be detailed as to work being performed per the project proposal, including the necessary reports described in Architectural Exhibit Review section.

Draw Request Inspection

 \diamond The Consultant must inspect the work for completion and quality of workmanship at each draw request.

Change Order

At the Borrower's or REMN WS's request, the Consultant must review the proposed changes to the Work Write-Up and prepare a change order.

Work Stoppages or Deviations from the Approved Write-Up

- The Consultant must inform the Mortgagee of the progress of the rehabilitation and of any problems that arise, including:
 - » Work stoppages of more than 30 consecutive Days or work not progressing reasonably during the rehabilitation period;
 - » Significant deviations from the Work Write-Up without the Consultant's approval;
 - » Any issues that could affect adherence to the program requirements or property eligibility; or
 - » Any issues that could affect the health and safety of the occupants or the security of the structure.

Consultant Fee Schedule

Feasibility Study

» If requested by the Borrower or REMN WS to determine if a 203(k) mortgage is feasible, the Consultant may charge and additional fee of \$100.00 for the preparation of a Feasibility Study.

Work Write-Up

- » The Consultant may charge fees listed below for preparation of the Work Write-Up and review of architectural exhibits:
 - \$400.00 for repairs less than \$7,500.00
 - \$500.00 for repairs between \$7,501.00 and \$15,000.00
 - \$600.00 for repairs between \$15,001.00 and \$30,000.00
 - \$700.00 for repairs between \$30,001.00 and \$50,000.00
 - \$800.00 for repairs between \$50,001.00 and \$75,000.00
 - \$900.00 for repairs between \$75,001.00 and \$100,000.00
 - \$1,000.00 for repairs over \$100,000.00
- » The Consultant may charge and additional \$25.00 per additional Dwelling Unit.

HUD CONSULTANT

203k HUD Consultant

Draw Inspection Fee

For each draw request, The Consultant may charge an inspection fee that is reasonable and customary for work performed in the area where the property is located, provided the fee does not exceed a maximum of \$350.00.

Change Order Fee

The Consultant may charge \$100.00 per change order request.

Re-Inspection Fee

The Consultant may charge a \$50.00 fee when re-inspection of a Work Item is requested by the Borrower or REMN WS.

Mileage Fee

♦ The Consultant may charge a mileage fee at the current IRS mileage rate when the Consultant's place of business if more than 15 miles from the property.

Improvements Standards

- General Improvement Standards
 - » The Consultant must ensure that the property will comply with HUD's MPR or HUD's MPS after the improvements have been completed and meet or exceed local building codes.
- Improvement Standards for Storm Shelters
 - When a storm shelter is part of the rehabilitation, the Consultant must ensure that its construction is consistent with guidelines issued by the Federal Emergency Management Agency.
- ♦ Foundation Standards
 - » Existing Structure Moved to a New Foundation
 - Prior to placement of the existing structure on the new foundation, the Consultant must obtain from the Borrower a report from a licensed structural engineer stating that the foundation is structurally sound and capable of supporting the structure.
 - After placement of the existing structure on the new foundation, the Consultant must obtain from the Borrower a report from a licensed structural engineer stating that the structure has been properly placed and secured to the new foundation.
 - Structure is Reconstructed on the Existing Foundation
 - Prior to reconstruction of the structure, the Consultant must obtain from the Borrower a report from
 a licensed structural engineer stating that the foundation is structurally sound and capable of
 supporting the proposed construction of the structure.
 - » Existing Structure will be Elevated
 - Prior to elevation of the existing structure, the Consultant must obtain from the Borrower a report from a licensed structural engineer stating that the foundation is structurally sound and capable of supporting the structure.
 - After elevation of the existing structure, the Consultant must obtain from the Borrower a report from a licensed structural engineer stating that the structure has been properly placed and secured to the new foundation.
